Stevie,

See below on add'l Dimock samples. These are not the resampling ones so will have the list we did in March. This will involve R9, R6, and NAREL (at least for now).

Cindy,

I just wanted to remind you that we will have between 4 and 7 1st round stragglers that have been waiting to be sampled when we schedule the resampling. We will generally be following the 1st round sampling plan. More details on this later, but just didn't want you to be surprised.
